INDEX BY CATEGORY

AUTOMOBILES

DIFFERENTIALS

- The Studebaker-Packard Twin Traction Differential—Its Problems and Limitations*, O. K. Butzbach, P. Izdepski, 3, XXII, June, 1958

DEFINITIONS OF TERMS

- Definition of Terms Relating to the Lubricating Grease Industry, Part II*, W. J. Ewbank, 8, XXII, November, 1958

GENERAL

Lubricating Greases: A Summary of Facts and Opinions, American Lithium Institute, 1, XXII, April, 1958

LUBRICATING GREASE

ANALYSIS

A Rapid Method of Analysis and Evaluation of Lubricating Grease, F. E. Chamberlin, C. F. Carter, J. L. Dreher, 10, XXII, January, 1959

ANTI-FRICTION

Ball and Roller Bearing Lubrication, R. S. Barnett, 12, XXII, March, 1959

APPLICATION

Modern Methods of Lubricant Application, E. J. Gesdorf, 4, XXII, July, 1958

EXTREME PRESSURE

Development of Extreme Pressure Greases, R. K. Smith, 9, XXII, December, 1958

HIGH TEMPERATURE

Development of an Extreme High Temperature Grease, J. W. Armstrong, H. A. Woods, 1, XXII, April, 1958

MANUFACTURE

The Mechanisms of Dispersion, K. H. Birkett, 11, XXII, February, 1959

The Mixing Efficiency of Grease Kettles, A. Beerbower, E. O. Forster, J. J. Kolfenbach, H. G. Vesterdal, 5, XXII, August, 1958

Some Practical Benefits of Mechanical Dispersion, J. J. Dickason, 11, XXII, February, 1959

NON-SOAP THICKENERS

A Preformed Organic Thickener for Lubricating Greases, W. L. Hayne, Jr., J. E. Kline, T. P. Traise, 12, XXII, March, 1959

Pyrogenic Silica-Thickened Greases, Peter B. Marsden, 5, XXII, August, 1958

TESTING

CRC Laboratory Technique for Determining Rust-Preventive Properties of Lubricating Greases, E. W. Adams, 4, XXII, July, 1958

Discussion of "The Ordnance Corps Looks Into Grease Bleeding," R. H. Leet, A. C. Borg, 2, XXII, May, 1958

Field Testing of Automotive Chassis Greases, C. L. Knapp and J. Panzer, XXII, 7, October, 1958

Flow Properties of Lubricating Oils Under Pressure, S. J. Hahn, H. Eyering, I. Higuchi, T. Ree, 3, XXII, June, 1958

Grease Bleeding—A Factor in Ball Bearing Performance, A. E. Baker, 6, XXII, September, 1958

The Ordnance Corps Looks Into Grease Bleeding, S. F. Calhoun, 2, XXII, May, 1958

Question and Answer Session—NLGI Panel Discussion, Symposium on Fundamental Research Aspects of Bleeding of Lubricating Greases, 7, XXII, October, 1958

Scientific Detection in Grease Lubrication Problems, R. J. Ronan and M. C. McLaren, 10, XXII, January, 1959

Sensory Examination of Lubricating Greases, Albert S. Orr, 5, XXII, August, 1958

Summary of Research by ASTM Technical Committee G-IV on Bleeding of Lubricating Greases, 7, XXII, October, 1958

Tensile Stresses on Lubricating Greases Reduce Bleeding, Dean W. Criddle, Jay Cortes, Jr., 6, XXII, September, 1958

MARKETING

Current and Future Military Grease Requirements, R. J. Horwath, 10, XXII, January, 1959

Future Lubricating Grease Requirements in the Steel and Underground Coal Mining Industries, J. C. Van Gundy, 11, XXII, February, 1959

Market Potential for Automotive Grease, W. M. Drout, Jr., N. L. Jenkins, 9, XXII, December, 1958

Needed—New Driver Attitudes, J. A. Mayor, Jr., 9, XXII, December, 1958

Packaging—An Essential Service, A. D. Murphy, 3, XXII, June, 1958

Selling the Magic Film Promotionally, H. A. Mayor, Jr., Jack Hodges, Oliver Elliott, 2, XXII, May, 1958

Social Maturity for the Corporation, R. P. Dinsmore, 8, XXII, November, 1958

Two Tons of Grease, J. W. Waite, 12, XXII, March, 1959

Your Drum Can Make More Trips, Allen A. Armitage, 1, XXII, April, 1958

STRUCTURE

A New Equation for Calculating Flow of Lubricating Greases, D. W. Criddle, 8, XXII, November, 1958

WHEEL BEARINGS

Recommended Practices for Lubricating Automotive Front Wheel Bearings, 1, XXII, April, 1958
